**THE DEFILED DVD**
In a post apocalyptic world, science and technology have backfired leaving unfathomable destruction and a permanently diseased planet in its wake. A virus is mutating the human race turning innocent survivors into mindless cannibals. In a savage future world devoid of hope, a man infected with the deadly viral disease must cope with the burden of a newborn son, ensuring his survival. Though he is infected, he does not allow his growing desire for human flesh to overcome his responsibility to the newborn. Along the road, traveling from town to town, he saves an unaffected woman from a certain death by facing down her perpetrators. Ultimately she joins him on his odyssey, a journey through hell on earth in search of a safe haven in which they can perhaps start a life together, both becoming committed to doing whatever it takes to make sure the child survives. Reminiscent of the work of Lynch, Maddin and Tarkovsky, The Defiled is a black and white epic of unparalleled artistry examining life, death and the ultimate sacrifice of love. Not since Carnival of Souls and Night of the Living Dead has a film captured the surreal outer dimensions of the human condition.

Lady of the Dark: Genesis of the Serpent Vampire DVD

The modern era of humanity would know nothing of this heritage as myths arose from rulers with evil intentions of domination and control over the minds and souls of others. But there was a secret prophecy hidden and protected by an elite few. An old parchment battered and worn over time, was kept safe through the ages. It claimed that one day the genesis of the serpent would begin again, because the seed of the serpent cannot die and will be re-born. Melanie Denholme, an unsuspecting married woman is selected for the re-birth and transformed into The Lady of the Dark - emerging as a ravenous, instinctual killer who shows no mercy.
